**WA 92 1**  
**DIVISION OF WATER RESOURCES FUNDING**

**WHEREAS:** The focus of water development for the Front Range and downstream states has been upon Western Colorado surplus supplies of water; and

**WHEREAS:** The efficient measurement of water, including data collection on diversions, consumptive water quality, use and return flows, and the effective day-to-day administration of water used intra-state, as well as compact water, is essential for accommodating the ever increasing demands upon limited supplies and planning for the future; and

**WHEREAS:** The Colorado Division of Water Resources, operating through the State Engineer's office and the seven water divisions throughout the state, must accomplish not only day-to-day administrative tasks, but must also prepare the data to reflect inter alia, how much Colorado River Compact water Colorado has remaining; and

**WHEREAS:** adequate funding for both the personnel to administer the day-to-day use of water and data collection for future intra-state and interstate allocation is vital for the economic and environmental future of Colorado,

**NOW THEREFORE BE IT RESOLVED,** that CLUB 20 supports adequate funding for the Colorado Division of Water Resources for both administration and data collection, to secure the best future for Colorado's water.

**Adopted February 14, 1992**  
**Renewed April 3, 2009**
